

SSL125 Suction Cup / Lifter

Suction Cup Lifter for Textured & Smooth Tiles
The first truly one handed operation suction cup!

<https://youtu.be/aDcVP4qXgGs>

- The square design eliminates the "rocking" that plagues all round suction cups when pressure is applied while you're trying to engage the suction cup.
- Square design keeps suction cup stable during both activation and during use, creating better overall vacuum.
- Added foam at outer barrier provides superior suction even on most textured tile
- Can hold up to 50kg of smooth material (similar cups max out at 36kg)
- Can hold up to 34kg of lightly textured material (not recommended for extended use)
- Ergonomic angled handle allows for comfortable use when carrying heavy tile
