

CRK608 Universal Coolant Refilling Kit

**Time saver, fast & clever way to remove
AIRLOCKS / BUBBLES in the cooling system,**

<https://www.youtube.com/watch?v=dmRSnWjWXIA>

- CRK607 Universal Coolant Filling Kit is designed to quickly and easily connect to most European & Asian car cooling system.
- The rubber adaptor provides a sealed filling system with additional head to help purge air locks.
- The funnel & adaptors are placed into the coolant radiator neck or tank and hand-tightened to expand the seal. The coolant flow can be stopped when the system is full via a level.
- The kit come with adapters (31mm, 35mm, 40mm, 42mm and 45mm) and a cone design that fits many European & Asian cars.
- A time saver , fast & clever design that makes removing air bubbles from the coolant system & reduces coolant spillage.
- Country of Origin : Taiwan
